UK560H Series

Design	Stand Type	1 Pole Swivel
Display	Sizes	55", 50", 43"
	Resolution	3,840 x 2,160 (4K UHD)
Broadcasting System	Digital	ATSC / Clear QAM
	Analog	NTSC
VESA	[43"] 200 x 200 mm [50"] 200 x 200 mm [55"] 300 x 300 mm	

Nano Panel

Experience the revolutionary technology of NanoCell, which uses a specialized polarizer and non-sized materials to achieve exceptional color reproduction without distortion. Advanced nano technology filters out impure colors from RGB wavelengths, delivering vibrant, pure colors and true 4K visuals. Enjoy lifelike imagery with precise colors and enhanced contrast. By utilizing nano-sized light-absorbing materials, NanoCell separates overlapping green and red wavelengths, expanding the color gamut. Elevate your viewing experience and watch your favorite content come to life!

Pro:Centric Direct

The hotel content management solution Pro:Centric Direct offers easy and simple editing tools, making it easy to perform service and IP network-based remote management with a single click.* The Pro:Centric Direct solution enables users to edit their interface easily by providing customized interface and efficiently manages all TVs in the room. The latest PCD version provides IoT-based in-room control as well as voice control function through LG Natural Language Processing (NLP). These IoT and voice-related functions will be your starting point to prepare for the hotel rooms of next generation through artificial intelligence.

* Some features may not be supported based on PCD versions.

USB Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation. Instead of setting up each display one by one, data can be copied to a USB for one display and can be sent to the other displays through a USB plug-in.

Pro:Idiom

Digital Rights Management (DRM) technology provides access to premium content to help assure rapid and broad deployment of HDTV and other high-value digital content.

Multi-code IR

Multi-code IR function eliminates any remote-control signal interaction between multiple TVs in one place. LG hospital TV supports this when used with a Multi-code IR remote control (sold separately), so users can freely control their own TVs without disturbing the others.

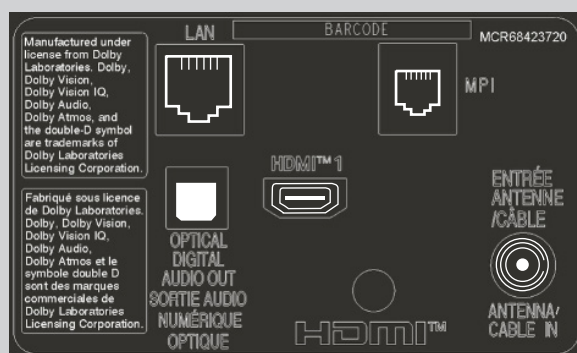

Ez-Manager

Ez-Manager provides a convenient installation function automatically set up for Pro:Centric TV that provides less effort and process than manual installation.
