Built-in Intelligence i

AI technology selects optimal wash or dry motions and settings based on fabric type and load size.

TurboSteam™

Refresh clothes, children's toys, decorative pillows and more with TurboSteam™ technology in between washes.

Pet Care Cycle

A specialized cycle automatically selects the optimal settings to help reduce odors in pet clothes, toys and blankets—and people clothes, too!.

EasyLoad™ Door

Load and unload the way you want to with a dual-opening dryer door designed for versatility.

Inverter Heat Pump

An easy-to-install, ventless design uses less energy to dry every load, with low temperatures that help clothes look their best for longer.
